LICENSURE WV | TX
EDUCATION J.D. West Virginia University

Andy Graham focuses his practice in the areas of energy and mineral law (oil and gas, coal, and coalbed methane), real estate, and commercial transactions. Mr. Graham regularly assists clients with mineral title examinations, coordinating and performing due diligence, buying and selling mineral assets, and issues related to surface use and compensation arising from mineral development. He is admitted in Texas and West Virginia.

REPRESENTATIVE EXPERIENCE

Performed due diligence for several multi-million dollar transactions of mineral assets, including coal, coalbed methane, oil and gas, involving title review, litigation and regulatory risk assessment and title defect curative work

Assisted clients with the performance of mineral title examinations and preparation of mineral title opinions

Represented clients in negotiations and litigation related to surface use or surface damages claims arising from coal, oil and gas operations

Experienced in preparing leases, deeds, easements, and other related agreements

WORK EXPERIENCE

2005 Steptoe & Johnson PLLC
